Paul - this is the Bloomington Hills mine (S/053/0007) - Looks like they did a good job regarding. Lets close the DD task (task #5626) and change the status of this mine to reclaimed. I will draft a letter to Scott Gubler to inform him that the site is now reclaimed and pending revegetation success, he will not need to do anything else.

Lynn,

Please find attached pictures of the reclamation work performed on the Gubler parcel.

The following seed mix was used to seed the site.

Smooth Brome 24%
Crested Wheat 28%
Intermediate wheat 18%
Perennial Rye 15%
Cereal Rye 10%
Russian Wild Rye 5%

11 LBS per Acre
